CAPT. PEARSON ADDRESSES A MEETING HERE

Under Auspices of Y. M. C. A.
at the Front—Meeting Popular
Attended—Speaker Gives Inter-
esting Address on Work
Done by "Y" and Makes
Strong Plea for Support.

Although we have "Christian" denominations represented in town there was a very small turnout at the meeting held last Sunday afternoon in the Baptist church under the auspices of the Young Men's Christian Association, and their work in the trenches. Some of these "Christian" denominations were represented by four, another by two or three, others by one or five members and others were not represented at all. The balance of the 48 people at the meeting was made up of children and men and women who are not actively identified with any denomination.

For a time it looked as though the meeting would have to be called off at 40 out of the 48 people were a half an hour behind the time advertised for the meeting to start. As a result, it was necessary for the speaker to cut their addresses short as they had to attend another meeting that afternoon.

Capt. Boak Pearson, M. P. P., was the principal speaker and after a few introductory remarks by Rev. Blundell of Medicine Hat, who acted as chairman, he was introduced to the audience. The captain is a ready speaker and as he has been over his description of many incidents in trench life and modern warfare was most interesting. He first referred to the many inventions brought into service during the present war and explained their uses. Among these was the tank which is sometimes called the "Irish Navy" by the boys at the front. He mentioned their arrival at the battle front and the excellent work done by them after they had passed through the experimental stage. Another new device was the "Amplifier." This is an instrument stuck in the ground to catch messages going over the communication wires and often serves as a means of catching enemy messages and divulging their plans. He also explained the use of the sound ranging. These are used to locate enemy guns. The different vibrations are registered on them and by mathematical calculation the guns can be very accurately located.

He then explained the character of the work being undertaken and carried out by the Y. M. C. A. for the boys in the trenches. It was a great deal for the comfort and amusement of the boys that the Red Cross could not do. The latter is an international organization whose main object is the care of the wounded. It also did work that the government could not do and could not conveniently do, as nothing but the absolute necessities for the carrying on of the war was undertaken by the government. Some of the things the "Y" provided for the men during their leisure hours were military drill, games, sports and recreation games, concerts, picture shows, educational work, stationery and rest rooms, refreshment huts and free tea and coffee. The men on actual service. To do this required considerable money and those responsible for this work are depending on the men left at home to provide. If we fall down it is the boys at the front who suffer.

"Some may say," said the speaker in conclusion, "that they are getting tired of these campaigns, but they might as well make up their minds we are going to have more of this kind of work is over. The man or the woman who gets off with slightly paying money is getting off lightly."

A campaign to collect money for this work will be held throughout Canada on May 7th, 8th and 9th. "Do your bit."

All persons manufacturing ice cream, candy, cakes, crackers, biscuits, pastry, confectionery, etc., for sale must secure a confectioner's license from the Canada Food Board.

Farewell Evening For Mr. Fowler

The school pupils, their parents and other friends of T. O. W. Fowler assembled in Reid's hall last Monday evening and tendered Mr. Fowler a farewell on the eve of his departure to Calgary to join the colors.

After all the friends had arrived a pleasant social time was spent until the arrival of the weekend train which the guest of the evening bade adieu.

After refreshments were served, H. O. Kilgus, on behalf of those present, extended to Mr. Fowler their best wishes and expressed the hope that he would soon return safe and sound.

Before the gathering at Reid's hall Mr. Fowler's school pupils met him at the house of Mr. and Mrs. Moffatt and presented him with a wrist watch. At the station his Sunday school class presented him with a fountain pen and the members of the Presbyterian church gave him a safety razor.

Since coming to Redcliff Mr. Fowler has made a host of friends among both young and old. He has not only proved himself an excellent teacher but his exemplary character has had a wholesome effect on the children under his care as well as those among whom he associated.

French Officer Gives Encouraging Report

A French officer who is in a position to speak with some authority said recently that:

"It is not this thing that we may expect Gen. Poth to take the initiative just yet. In my opinion there is no immediate necessity for him to take the initiative of the kind which we all hope and fear he will take soon or later."

"At present both the British and French armies are very busy killing Germans and killing them very satisfactorily. Indeed, this, of course, is our immediate object."

"There is no room for any and as to the present situation, none whatever. The best thing I can tell you to do is what Poth told Clemenceau nearly a month ago, and that was simply 'Wait.'"

This authority sums up military operations thus: The great struggle between the British and the French is not a present position for perhaps another three weeks before any striking change will be made. The allies may give ground and probably will do so, seems to be the general expectation. But so did the French at Verdun and the allies six long months under for more favorable circumstances to advance four miles from Douaumont until he was again captured before Fort Souville. The Allies front is another Verdun, with this difference, that Amiens is being held and the Germans are being driven where Douaumont was only six miles from the heart of Verdun.

Returned Soldiers Commission Appointed

Premier Stewart has authorized the appointment of the personnel of the Amiens Returned Soldiers' commission to be the first session of the legislature. The commission is to deal particularly with matters affecting the soldiers and their dependents and the commission now has the status of a branch of the public service of Alberta.

Loss selected by the government are J. A. McQuiggin, Edmonton; A. J. N. Terrell, Medicine Hat, and J. T. Sheppard, Lethbridge. These selected by the soldiers organizations are John McKinley Gray, Calgary; Alf Cleland, Calgary, and Albert Nightingale, Edmonton.

Not Sufficient Wheat Arriving in England

Wheat imports are not arriving in the United Kingdom in quantities sufficient to meet weekly requirements. Such is the grave report from the British ministry of food in its latest cable to the Canada Food Board, dealing with the food situation.

LAUREL HOTEL BURNED TO GROUND MONDAY MORNING

Fire Started at 4 a. m. and Did Quick Work—Building and Contents a Total Loss—No Lives Lost but the Boarders Barely Have Time to Escape—Loss \$60,000

A \$60,000 building reduced to ashes and with it furniture and boarders' belongings to the value of about \$10,000 is the result of a bad fire which occurred in town last Monday morning when the Laurel Hotel, burning, was burned to the ground.

The origin of the fire, which started about 4 o'clock in the morning, is a mystery. Although the brigades and a large crowd of citizens were on hand shortly after the alarm was sounded the flames had gained such headway that the impossibility of saving either the building or its contents was at once seen.

The brigade immediately set to work to save the adjoining buildings and prevent the flames from spreading over the prairie. In this they were successful.

At the time of the fire this building was being run by Mr. O'Fallon as a restaurant and hotel. There were about twenty-five regular roomers and some transients in the house and all these were sound asleep in their beds. In jumping from the windows of his room W. Burgett broke one of the small bones in his ankle and was taken to the Medicine Hat hospital. All the occupants of the house escaped with only what clothing they could grab in their hurried flight.

It is the opinion of those first on the scene that the fire originated in the basement but how it could have started is a mystery. One of the employees in the kitchen, named Stewart, first discovered the fire and sounded the alarm.

When the fire was at its worst the building produced a most spectacular effect. Flames were shooting from every opening and the whole building appeared to be on fire at once, lighting up the whole district and casting a vivid reflection on the nearby town.

The total loss is estimated at about \$60,000 and it was the worst fire we have ever had in Redcliff.

Allied Lines Are Now Holding Firm On Western Front

Again there has come a pause in the battle in Flanders, where the ground there is covered with grayed bodies of German dead and the British and French are holding securely to all their positions.

From Saturday until well into Monday night Gen. Von Amiens' forces launched their efforts to break the British line on the Ypres salient and to press back the British and French from the high ground to the south-west, but everywhere their attempt was fruitless. True, they gained objective and again captured Loos, a small attack force, then they again and at last accounts the French were holding the village.

In the hilly region just to the north of Loos the British also pushed back the enemy at several points, notably between Kemmel and La Clytte.

Much of the time the German attacking forces have been absent from the manoeuvres they have been carrying on in Flanders under the stiffened line of the extensive troops, which has been visibly apparent since last Sunday.

On the south near Amiens, and to the east around Noyon, the enemy likewise has failed in all attempts to push further forward. The British line of Villers-Bretonneux, which directly east of Amiens, have advanced their front, and in the Noyon region the French have re-established their line which the Germans previously had captured from them.

The Germans on various sectors of the line are still busy and no person said in Canada came sugar for making, for private consumption, what is commonly called "candy."

U. F. A. President To Speak in Redcliff

H. W. Wood, president of the U. F. A. and of the Canadian council of agriculture, has been selected to give the opening address of the Dominion, Champlain, in connection with the Champlain U. F. A. will address areas twenty meetings in the province. At President Wood will conclude his speech each day about 4.45 p. m., one hour or more will be left at each meeting place immediately following the speaker's address, which should be taken advantage of by our locals for organization work.

No Time for Ease, Delay or Debate

In a topical reference to a volume containing extracts from the prime minister's war speeches, David Lloyd George says:

"I never believed that the war would be a short war or that in some mysterious way, by negotiation, or compromise, we could free ourselves from the malignant military autocracy which is endeavoring to trample it into submission and moral death."

"The events of the last few weeks must have made it plain to every thinking man that there is no longer room for compromise between the ideals for which we are fighting."

Democracy and democracy have come to the death grip; one or the other will fasten its talon on mankind.

"It is a clear realization on this issue which will be our strength in trials to come. We have no doubt that freedom will triumph. But whether it will triumph soon or late, after a final supreme effort in the next few months, or in some distant day, depends on the vigor and self-sacrifice with which the citizens of liberty, especially those behind the lines, dedicate themselves to the struggle."

"There is no time for ease, delay or debate. The call is imperative, the struggle is close. It is for each free citizen to do his part."

English Newspapers Prepared for Worst

Some of the English newspapers appear to be preparing the public for the loss of the ports. The London Times says:

"There is no denying that the loss of Rouen is a considerable tactical success for the enemy, and it will be well, therefore, to prepare for the receipt of other disagreeable news. If the enemy is able to extend his grip on Rouen we may be compelled to evacuate Ypres. Such a catastrophe would inevitably entail the evacuation of Dunkirk, Calais and Boulogne. It is well to be well to take their consequences might cause. We must remember that the Germans cannot win the war by the occupation of Ypres and the channel ports."

Sending Letters to Prisoners of War

With view to this arrangement is invited whereby correspondence of military and family nature can be forwarded from individuals in Canada to persons in the armed forces. The territory through the medium of The Cook & Co., 530 St. Catherine street, W. Montreal, differing is being carried out to persons remitting the charge for forwarding these letters (\$5c) by postage stamps instead of with a postal note for 50 cents with five cents in postage affixed thereto.

The attention to persons sending such correspondence is particularly directed to this fact in future where the charges are remitted by means of postage stamps the letters will be returned to the senders.

Many Additions To Canadian New War Tax

In presenting the budget the federal parliament, Hon. A. C. McLean, who is acting minister of finance, outlined Canada's proposed new war taxes. They are as follows:

Special C. P. R. tax, \$700,000. Additional tax on packing industry. Changes in business tax applying to business employing capital of \$25,000 and \$50,000. Rate will be 25 per cent of amount by which profits exceed 10 per cent.

Income tax exemptions reduced to \$2,000 for married men and \$1,000 for unmarried. Rate will be 2 per cent. There will be additional exemption for married men at \$2,000 for each child under 10 years of age.

In addition to the normal tax and super-tax a war surtax assessable up to and inclusive of the calendar year in which the war ends upon the tax payable as follows:

On incomes from \$6,000 to \$10,000, 5 per cent; on incomes in excess of \$10,000, 10 per cent; on incomes of \$10,000 and over, 10 per cent; on incomes in excess of \$20,000, 25 per cent.

Cigars, \$5.00 to \$20.00 per 1,000. Cigarettes, \$3.00 to \$5.00 per 1,000. Raw leaf (tobacco), 25c to 40c per pound.

Raw leaf (tobacco), 25c to 40c per pound. Coffee, 2 1/2c per pound, preferential, 10 per pound general.

Tea, 10c per pound. Beverages requiring malt, rice, corn, containing not more than 25 per cent proof spirits, reduced to 25 per cent ad valorem to 40 per cent ad valorem.

Bleached car berries charged at 10 per cent with minimum of 25c; parlor car, 10 per cent.

Steaming railways, 50c per fiscal foot of line.

Automobiles, phonographs, jewelry, gramophones, talking machines and musical instruments, 10 per cent on selling price.

Playing cards, 50c per pack. Matches, 10c per 100.

More War Time Restrictions Promised

Drastic war time restrictions on the use of sugar and shortening, the manufacture of business cards or sweet tooth, are being considered by the government. The manufacture of certain of these products, curtailment of sugar consumption, curtailment of candy manufacturers to one-half a year, and the principal provisions of the order just passed by the Canada Food Board.

The new regulations are intended to re-adjust Canada's consumption of sugar to the available supply and to prepare for the requirements of the coming and preserving season. The use of fat is curtailed because of the increasing need for edible fats overseas.

Embryo Sky Pilots Must Join Colors

All students for holy orders of the Anglican church will have to don the khaki if fit, and in classes called, according to a decision unanimously arrived at by Judges Curran, Galt and Haggart at Winnipeg yesterday. The decision came into force through a report of the four students were to be ordered into the army and their arrangements were cancelled.

ARRANGEMENTS MADE TO ALL CANADIAN CHEESE

It is officially stated that Sir Robert B. Brown and Sir Thomas White, during Sir Robert's recent visit to New York, succeeded in arranging a necessary quota in Canada for the British government to purchase the entire surplus surplus of Canadian cheese production for the present year. The amount of the quota will be \$40,000. The arrangement will mean a certain market for Canadian-produced cheese at market prices already fixed.

THURSDAY, MAY 2, 1918.

MAKE IT WORTH WHILE.

Now that the town council has decided to enforce the jiffy license bylaw it would be well if they would set a good stiff fee so that it would be some protection to those who are in that work as a legitimate business and at the same time have a tendency to keep undesirable characters out of the town.

There are some who own cars who by getting a \$3.00 chauffeur's license, can butt into the jiffy business—when times are good and thus skim the cream off it and leave the others to carry in when it is poor. A small town license would not stop this but a good stiff one might.

Then again we have been informed that these promiscuous jiffy drivers are responsible for bringing questionable characters to town, soliciting trade for them and securing licenses for them. They are here today and away tomorrow. With a license fee worth while this class would no doubt attempt to dodge it, thus giving the police another opportunity of catching them.

A CHANGE NEEDED.

I look at the high cost of living question from different angles one is forced to admit that the consumers themselves are in some measure responsible. For one thing our tastes, both in food stuffs and dress have gradually, and possibly unnoticed, become more and more extravagant each year. This cannot be denied, and while it is not altogether responsible for present conditions it is at least partially. Then there is custom. At one time a small boy with a push cart did all the delivering for a large grocery store. On those days it was not considered beneath one's dignity to carry home a loaf of bread or a pound of butter. Now it is different. Nothing is carried. Sometimes merchants are even expected to deliver a spoon of thread.

The "just send it up" habit has grown to such an extent that the boy couldn't keep up with it. A horse, wagon and driver was necessary and in turn the motor truck has in many cases to replace the horse. This naturally has greatly increased the delivery expense and somebody has to pay that increased expenditure. You gentle reader, can tell with one guess who that somebody is. Yes, that right. You pay your share, because you are so proud or too lazy to carry your own parcels. If you are not you pay anyway for the fellow who is.

We believe the time is coming when we must get back to the old way, and one thing that is going to help bring it about is man power registration which is about to be taken. By this registration it will be found that one delivery can do the work now being done by three or four and the surplus of teamsters will be conscripted for farm work.

The merchants themselves should—and we have no doubt will—welcome the change. They can do much themselves to make it a success. Why not have two prices for goods? Have a cash and carry price and a cash and deliver price, or have the one price for the goods and charge for the delivery. Why should

the fellow who takes home his own goods help pay the expense of delivering a pound of butter and a loaf of bread to the fellow who doesn't?

One general delivery for a whole town of average size would not only reduce expenses for those who are anxious to save but would, at this time when hay, oats and gasoline are such necessary commodities for war purposes, be a same, war-time, economic move.

NEW REGULATIONS.

We would draw the attention of all dealers in food stuffs to the fact that in future all bill heads, sale slips and advertisements must have printed on them the number of their license from the Canada Food Board. Failure to do this makes the dealer liable for a fine.

In connection with these licenses and the enforcement of all food regulation laws and measures the municipal police are expected to assist in every possible way to see that they are enforced. This is the only way that they can be enforced economically and satisfactorily, as it would take a whole army of government officials to do this work. Because of this the matter should be given some special attention. There is no use having one or two law abiding white merchants live up to the letter of the law, when others either through ignorance or designedly pay no attention to it.

We have at present in town a number of Celestials and other foreigners engaged in various lines, but all doing a certain amount of business in groceries, vegetables, etc. These should pay a license like the rest. As many cannot read English, however, and know very little about what is going on in our war measures, they should not be dealt with harshly at the start. They should be informed of the law and given so long to comply with it, then if they don't an example should be made of them.

In closing his address to a Medicine Hat audience, E. F. Fretz, of the American Food Department said: "We will have to change the Lord's prayer; instead of saying 'Give us this day our daily bread,' we will have to go, further and say, 'Dear Lord, give them through us their daily bread.' Only by their stripes are we saved, Dear Lord, what more can we do. Send us the spirit of sacrifice."

In his budget speech before the Canadian parliament Hon. A. K. McLean intimated that if Canada is to continue her part in this war the people must be prepared to supply the funds year after year, purchasing victory bonds as the money cannot be obtained elsewhere. He also said that another victory loan would be issued next fall and advises all to start now to save up for it.

It was only last week that the retail price of cigarettes was advanced. The new war tax places an additional tax of from \$3 to \$6 per 1,000 on cigarettes and we may expect another advance in retail prices in the near future. We have an idea that this tax will do more to reduce the consumption of cigarettes than all the anti cigarette clubs.

Quebec and Hull, two cities in Quebec province, went dry yesterday. Poor old John Barleycorn's dominion is getting smaller every day on the continent. Detroit city, just across the line, also said farewell to him the same day. Let us all have a buttermilk highball and celebrate after the funeral.

Now that Quebec city has gone dry the young men of that centre may turn their attention to the war and recruiting. A good slogan for them to adopt would be: "John Barleycorn is dead! three cheers for John Bull!"

That eight cents a pack tax on playing cards will mean a little extra bookkeeping for the rake off man. A blue chip out of every pot should soon make up that 8c, so what's the use grumbling.

Two Alberta editors of weekly papers have quit their jobs and signed up for the war. Who said the pen was mightier than the sword?

U.S. Preparing For Army of 3,000,000

The increased army program, necessitated by the German drive, it is feared, probably will be made before Congress by Secretary Baker within the next few days. The whole question of available equipment, quarters and transport tonnage has been reviewed recently in preparation for submitting these figures.

There are some indications that efforts will be made to add a million men to the colors at the earliest possible date, supplementing the million and half already with the colors and the 800,000 previously scheduled to be mobilized this year. The result would be the necessity of providing new funds for a force of more than three million.

British and German light forces clashed on Saturday in the waters east of the Great German fortresses of Heligoland, the British admiralty announced. After the exchange of a few shots at long range, the German warships took refuge behind their mine fields.

The Austrian situation as viewed in Rome indicates that the monarchy is losing authority.

Vast Issues Depend Upon the Welfare of Our Men!

Clear, Up and Thank God for the Y.M.C.A.

War Work Summary

There are:

- 60 branches of Canadian Y.M.C.A. in France.
- 70 branches in England.
- Delegates Y.M.C.A. dug-outs in forward trenches under fire.
- Over 120 Military Secretaries overseas.
- 300,000 letters a day written in Y.M.C.A. overseas buildings.
- \$153,000 needed for athletic equipment. (Helps morale of soldiers).
- Y.M.C.A. saved hundreds of lives at Vimy Ridge by caring for the wounded.
- Over 100 planes in England and France, also 500 gramophones and 27 moving picture machines.
- Y.M.C.A. helps boys in hospitals.
- More than 60,000 cups of hot tea and coffee distributed daily in France—free. Estimated cost for 8 months, \$48,000.
- 150,000 magazines distributed free every month (Estimated cost \$125,000).
- \$125,000 used in 1917 to build bus in France.
- Concerts, sing-songs, good-night services and personal visits energetically conducted. Concerts, lectures, etc., cost \$5,000 a month.
- Thousands of soldiers decide for the better life.
- Y.M.C.A. sells many useful things to soldiers for their convenience. Profits, if any, all spent for benefit of soldiers.
- Service to boys in Camp hospitals.
- Red Triangle Clubs for soldiers in Toronto, St. John and Montreal. Central in Paris and London for men on leave.
- Y.M.C.A. in Canada \$75,000 to be contributed to the War Work of the Y.M.C.A.

Boys!

Here's your chance to do a fine stroke in the big war! Help the boys in France, Italy and the others overseas by joining in the

"Earn and Give Campaign"

Six thousand Canadian older boys are invited to earn and give at least Ten Dollars (\$10) to the Red Triangle Fund. That means \$50,000 in the next five thousand dollars will be for boys' work in India and China; another \$5,000 for the Red Triangle Fund. The Y.M.C.A. representative for information and pledge card. When you have subscribed or more units of Ten Dollars, you will receive a beautifully engraved certificate.

TRY to picture yourself in the muddy cold trenches after exciting days and long nights of mortal danger and intense nervous strain. Rushing "white-bangs" and screaming "cool boxes" are no respecters of persons. You are hit! But despite shock and pain you still can face the long weary struggle back to dressing station. Weary, overworked and depressed, you are prey to wild imaginations of that other coming ordeal with the surgeon. There are other "walking wounded" too. You must wait, wait, wait. And then—

Up comes a cheery Y.M.C.A. man, the ever-present "big brother" cup of coffee that staggered the man back to life and sanity.

The tremendous helpfulness of the Y.M.C.A. as an aid to the "morale," or fighting spirit, of the soldiers is everywhere praised. No wonder the Germans make every effort to smash the Y.M.C.A. out of existence.

The Y.M.C.A. is everywhere. You first met the helpful, many Y.M.C.A. worker in camp, then on train and boat, at camp in England and in France, close to the firing line. Often he risks his life to reach you in the trenches. He has won the warmest praise from military authorities, statesmen—the King! Have you a precious boy at the front? You cannot be "over there" to guide him away from these temptations of camp and city. You cannot comfort him in his supreme hour of trial. Your parcels to him are necessarily few. But the Y.M.C.A., thank God, is "over there," going where you cannot go—doing the very things you long to do—doing it for you and for him. Will you help? This vast organization of helpfulness needs at least \$225,000 from Canada for 1918. For your boy's sake be GENEROUS!!

Y.M.C.A. Red Triangle Fund

Early Hatching

Hatch early. Make every effort to get your chicks out of their shells before the 24th of May. The lighter broods may be hatched up to the first of June. As a rule, the heavier broods hatched later than the 24th of May are not satisfactory. At least 90 per cent of the pullets in Canada were not hatching during November and December. For the next winter, because they were hatched too late.

If you are depending upon your own flock for breeding eggs made to sit fifteen days before setting. Test the eggs for fertility so that you will be sure you are not setting many without good fertility. If you are using incubators set early, but do not count on more than three hatches. If you can get all the chicks out in one hatch, so much the better. If hens are used, use some system. (See Exhibition Circular No. 1, Experimental Farm, Ottawa.) If the hens are too slow in becoming broody even if you can get some custom hatching done or purchase day-old chicks. Get in touch with good breeders in your vicinity, or write your nearest Experimental Farm.

There is more money wasted each year because of late hatching pullets than is often made from the best of the flock.

No late hatches. Do not be misinformed. Late hatched chickens as a rule do not pay. "One more hatch" will not help the Empire. Better to sell the eggs and save the feeds.

Peas and Oats

Profitable Crops

The problem of securing satisfactory succulent feed for cattle in winter has been keenly felt by stockmen in Alberta.

In Central Alberta the growing of corn for silage is not feasible for the reason that only in fifty per cent of the years in which corn has been grown has the crop reached sufficient volume to be considered profitable. The best substitute for corn is peas and oats, needed at the rate of one bushel of peas and two of oats to the acre. In fact, the experience with these two feeders as grown under central Alberta conditions prove indicate that peas and oats are superior for silage purposes to corn, and since this crop is dependable every year, and the yield satisfactory, it is safe to predict that it will occupy a premier position among silage crops for this section of the west.

POTATO CULTIVATION.

Be wise in time, and if you are cultivating potatoes send to the publications branch, Department of Agriculture, Ottawa, for Bulletin No. 90. This bulletin, which is a popular edition of a more scholarly work, prepared by the Dominion Horticulturist, is calculated to prove an invaluable aid to the potato grower, whether Amateur or professional, whether cultivating field or vacant lots. It tells how to prepare the soil, how to fertilize, how to select good seed, how to plant, how to tend the plants, how to prevent the ravages of insect pest and fungus disease, how to spray, how to dig, and how to store. A list of the varieties best suited to different districts in every province is also given.

Explains Course of

Military Service Act

Major-Gen. Newburn in the house explained the course adopted under orders-in-council recently passed, amending the Military Service Act. District registrars, he said, had been notified to call up men unmarried, between 20 and 22 years of age, inclusive. The instructions were that men from urban centres should be called first so that the men on the farms might have an opportunity to conclude their seedling operations. Up to April 29, 29,208 men had reported for service under the Military Service Act.

From these must be deducted 2,363 who had gone to the Royal Field Artillery Corps. There were 7,944 men in class one who had failed to report and who were not apprehended. They were deserters and every means was being taken to secure them.

Under the recent order-in-council, a ground of exemption was recognized. That was the case of a man who had relatives deceased or disabled at the front. In the case of an early reminder sent with brothers at the front he could be given leave of absence. Men in medical categories lower than category A were not being called up for the present.

In the cancellation of exemptions it was hoped to secure 35,000 men on a conservative estimate.

NOTHING BUT

THE TRUTH

If you have "business worries" or family affairs are on your mind, try to forget them for the moment while you allow the information to come to you. The Truth, the Empire, The Truth, Medicine Hat, will next Tuesday, Wednesday, May 7th and 8th, be given over to Max Pignam, supporter of the Truth, by a moving company of farmers, who are driving all cars to the woods where their performance of James Montgomery's farce, "Nothing But the Truth," which comes to us with the official endorsement of New York Theatre, goes that it is the most-up-to-date funny play ever seen in the Metropolis, and these same New Yorkers looked and laughed at it for an year. It is a farce—and this word is used advisedly—built upon the resultant effects of a confident young man to speak the truth, and nothing but the truth for 24 hours running.

The comedy is the original that appeared with Mr. Pignam and now on its second transcontinental tour.

Pool Room Cannot

Sell Soft Drinks

The executive council at Edmonton has passed regulations altering the terms of the licensing of billiard rooms and bowling alleys in the province.

In accordance with the new regulations every application for a license shall be accompanied by a written recommendation of the head of the municipality. In the case of the provincial pool room or the pool room inspector to the effect that the premises in which the proposed business is to be carried on are in every respect suitable for the purpose, and that the applicant is a person of good repute, and one to whom such license might properly be granted.

It also provides that no soft drinks shall be sold or kept in any pool room or bowling alley; no other business of any kind other than the sale of tobacco shall be carried on in the pool room or bowling alley premises; no gambling or game of chance of any kind shall be allowed in any pool room or bowling alley; the windows of such premises shall not be obscured so as to in any degree prevent an unobstructed view from the outside of the interior. Notice of the provisions of this act and any regulations made thereunder in form approved by the attorney general shall be posted in a conspicuous place in the premises.

It further provides that notice of every application for a license shall be published in a newspaper published nearest to the proposed premises or if no newspaper then one are published in such locality then in one of such newspapers once a week for at least two weeks.

All Exemptions

Are Now Cancelled

Exemptions of men in class one of the ages of 20, 21 and 22 are cancelled. Thus, all unmarried men and widowers who were of these ages when they claimed exemption will be required to join the colors, irrespective of any exemption from military service granted or pending.

The calling to the colors of the three years mentioned is expected to yield at least 60,000 men physically fit for combat, service overseas.

Found Guilty of

Conspiracy in U. S.

Twenty-nine persons, Hindus, former German consular officers, business men and others, were found guilty by a jury in the federal court at San Francisco of conspiracy to violate the neutrality of the United States through efforts to foment revolution against British rule in India. Thirty were on trial and the only verdict of not guilty was returned in the case of John P. Craig, head of the Craig shipbuilding yards.

WANT LANDS NEAR

RAILWAYS SETTLED.

The Winnipeg Ministerial Association went on record as being unreservedly in favor of the adoption by the Dominion government of a policy whereby the million acres of arable land adjacent to railways in western Canada and still unsettled shall be available to bona fide settlers at a fair price, and on terms to be ascertained and fixed by the government.

It was further resolved that in the working out of such a policy the association was of the opinion that preference should be given to the applications of returned soldiers.

Holland Yields to

Germany's Demands

Holland has yielded to Germany's demands concerning transport and supply of mail and gravel, although it is understood that the amount of mail and gravel will be "limited" instead of unlimited, according to a dispatch from The Hague to the Daily Mail dated Sunday.

It is said that a general declaration will be required from Germany that the land and gravel will not be used for military purposes.

Humors are current in the Dutch capital, the dispatch adds, that Dr. John London, minister of foreign affairs, will resign.

In summarizing the situation, the dispatch continues, it is felt that the crisis with Germany has passed, although the solution is in no wise an ideal one for Holland.

Hun Socialist Leader

Airs His Complaints

A carefully censored report of the discussion at a session of the main committee in Berlin does not conceal the fact that there were lively expressions of dissatisfaction with the military administration. Herr Scheidemann, the majority Socialist leader, asserted that information given the committee regarding the events at Zeebrugge were "at least erroneous."

He also attacked the war department for "gagging the press" and for the criticism of "stupidities." He also referred to discontent in the Ukraine and the refusal of the military to allow representatives of border people to file appeals before the German people.

SOLDIERS RATIONS REDUCED. The shortage of wheat in France has become so serious that the bread

THE STONER AGENCIES, REDCLIFF THIRD ST.

ration of the French soldier has been reduced. Eighteen million bushels of wheat were promised Europe from North America per month. Since January 1st the shortage has been 50,000,000 bushels, according to the Hon. Everett Cobb, senator for New Jersey, in his speech delivered at Ottawa the other day.

Rumors persist at Stockholm of the restoration of the monarchy in Russia, and further reports from Finland say the new government would offer to recognize the Bolshevik peace treaty with Germany.

U.S. Will Send two

Million Men at Once

An official report from Washington dated April 28th says:

"Washington, April 28.—The most important announcement of the war was made here today. The United States is to furnish the 'last reserves' that will give the final decision against the military machine of Germany."

"The decision has now been reached. The supreme effort is to be made to get troops abroad. Considerations of commerce and trade have been definitely put aside. The business of winning the war is the only business that will be recognized from this time on."

Two million men and more are going to France as soon as they can be loaded on transports and shipped away.

It is not a matter for a shipbuilding program or of negotiations for tonnage. The necessary tonnage now under the control of the United States, and to the last ton it will be devoted to the transportation of troops and war supplies under the "last reserves" of American troops have been placed in fighting position on French soil."

Demand Exchange

Of Hun Prisoners

A report from Washington says: "Germany has demanded of Russia an exchange of prisoners and has threatened to take Petrograd unless the Russian government agrees to the terms advanced, the state government here learned."

"The German government, the state department's dispatch adds, is sending to Russia a commission of 115 members to present the German demands."

SOME INVENTION. Toronto may have finished an invention by which an alarm, without any physical act, can call out to war, and an enemy city, unload a carload of the latest and most approved bombs, turn about, come back home, visible itself for the night and be ready for another journey on the following morning.

Pool Room & Bowling Alley Regulations.

Notice is hereby given that the following regulations have been duly made by the Lieutenant-Governor in Council:

1. Other than tobacco, no articles shall be sold or kept for sale on the licensed premises.
2. No business other than that covered by license shall be carried on in the premises.
3. No gambling or games of chance of any kind shall be allowed.
4. Outside windows shall not be obscured so as to in any degree prevent an unobstructed view of the interior from the outside.
5. License may be suspended or revoked at any time without notice, where in the opinion of the Attorney General the Act and regulations are being disregarded.

6. Application for new license, renewal or transfer of license must be first approved of both as to character of applicant and suitability of premises, by the Mayor, Reeve, or Chairman of the Board of Municipal District, or an Inspector of Provincial Police, or a Pool Room Inspector, and notice of such application published in a local newspaper once a week for at least two weeks.

Edmonton, April 30th, 1918.
A. G. BROWNING,
Deputy Attorney General.

Will Create New

Food Portfolio

There is an interesting rumor about in Ottawa that while the cabinet is re-constructed there will be created a new portfolio to be known as the ministry of food. Under this department will be placed the Canada Food Board, the inspection of cold storage warehouses, the cost of living commission, now under the minister of labor, and several other odds and ends, all relating to the same subject, scattered through various departments. The idea would be to co-ordinate the work of these important branches, a work which promises to become greater as the war continues.

DRAYING AND TEAMING

Farmers! See Keats for hail insurance.

E. J. Crowe left last Monday morning for the east on a business trip.

Mrs. W. Flannery returned home last Friday after spending the winter in Montana.

Man's boys and girls, get your clothes shop at The Hicks' Trading Company.

GRAIN TANKS AND GRAIN BOXES for sale cheap for cash, made in Reddelf. Call and inspect them at The Stoner Agencies, Reddelf.

The employees of the Rolling Mills and other friends of R. P. Cross will tender him a farewell banquet in Crowe's hall on Saturday evening.

At a meeting held last Monday evening the members of the Reddelf Club decided to close up their rooms and dispose of the furniture.

E. Koppa, son of T. Koppa of this town, reported for service last Monday. He expects to get leave to go to a crop on the home front in the Bowell district.

NEW ABTIS, negliges and sport for men and boys, at The Hicks' Trading Co.

Five per cent discount on groceries for cash and carry customers, except on flour and sugar. Keats' Grocery.

Last night Mrs. Blundell received word that her mother, Mrs. M. F. Taylor, had passed away at St. Paul, after a short illness. Mrs. Taylor was a visitor in Reddelf last year.

J. W. Pollard, who has been conducting a grocery store on First street south, has sold out his interest to Miss Cornick. He has secured a position in a large store in Calgary and leaves shortly for that city.

Mrs. C. W. Gibson, accompanied by her son Allen, and daughter Mary, left this morning for Rochester, Minn., and other southern cities to consult specialists in connection with Allen's ailments. Before returning she will visit her old home in Missouri.

Men and Boys, try a summer suit! newest styles, at The Hicks' Trading Company.

B. P. Cross, who has been manager of the Rolling Mills here for almost two years, resigned this position and severed his connection with this plant this week. He expects to leave shortly for Vancouver where he will make his headquarters in future. The family will remain here for the present.

About two o'clock last Sunday afternoon the fire brigade was called out to a fire which destroyed part of the new loggia along the west side of the town. The town pond also caught fire from the fence and the timely arrival of the brigade stopped the fire from spreading to the Glass plant fences, which at one time were seriously threatened.

Wheat seeding in the Box Springs district is now almost completed and it is stated there is a much larger acreage than last year. It is expected the all the wheat in this district will be in by the end of the week. In this district as a whole there is a considerable increase in the number of acres under cultivation. Adam Debus, west of town, has a large staff of men on the land and is aiming to have 1,000 acres in crop.

Shed your garden seeds at Blundell's.

Just arrived, large shipment of J. W. J. Keats' Grocery.

M. L. Crouch left last week on a business trip for Washington, Oregon and California.

Miss Harber, who has been attending McGill college, Montreal, returned home today for her summer vacation.

Ice cold "Chinon" and soft drinks served at Blundell's. Our store is next the picture theatre.

FARMERS! I have some grain tanks and grain boxes left and will sell them cheap for cash. R. R. Stoner, Reddelf.

As a result of the fire last Monday morning all the phones north of Broadway were put out of commission for a few days. They are now all in working order again.

E. L. Stoner received word last Monday that one of his nephews had died under the supreme sacrifice on the battlefield in France. He has two more nephews in the firing line.

Mr. and Mrs. Alex. Fairbairn, of Camdell, Sask., who are on their way home from the Pacific coast, stopped off here for a few days to visit Mr. and Mrs. W. J. Fairbairn.

E. Hutterman had a grocery destroyed by fire last Monday. The building caught from a straw pile which was being burned, and was completely destroyed.

Reland Brothers of the Box Springs district have purchased another quarter-section of land from the Hudson's Bay Company. They have great faith in this district as a wheat growing center and now own two sections.

J. Donald Rankin, a returned soldier, has been engaged as teacher at school here, to replace Mr. Fowler who resigned this week. The new teacher commenced his duties yesterday morning. His home is in Medicine Hat.

Pure Maple Syrup at Keats' Grocery.

We handle the famous "Reach" line of baseball gloves. Blundell's.

P. Sutherland, formerly manager of the Atlas Lumber yard here, left yesterday morning for Glenora, Sask., to take charge of a lumber yard at that point. Mrs. Sutherland will remain here for the present.

Canadian Pool Control License No. 8-1477. Keats' Grocery.

James Moffatt, of the Bowell district, has sold his half section west of the homestead to A. Hyve, also of the Bowell district. Mr. and Mrs. Moffatt and family left Tuesday for Chateaufort, Ont., where they will reside in future.

All arrangements are now completed for the O. O. F. church parade on Sunday afternoon at 3 o'clock. The members and visitors will meet at the bridge room, Reid's Hall, at 2:30 and from there they will proceed to the Baptist church led by the Reddelf band. Rev. P. T. White, the pastor, will address the brethren.

This news scattered around town last Tuesday announcing that "the only show of its kind in the world" would be put on in Reid's hall that evening. The bills told the truth and all are sure the world is glad to know there are no more like it. However the admission fee wasn't much and no one was stung very badly.

Did you see our adv. in the top left hand corner of the front sheet?

New shipment of boxes of chocolates just received at Blundell's, The Big Store, Third street.

C. O'Fallon and P. Clark left Tuesday evening for the Empire district to assist in farming operations.

T. O. W. Fowler, of the public school staff, received word to report for duty on May 6th. He left Monday night for his home in Camrose where he will remain all the 6th.

At a meeting of the Chateaufort committee held last Friday evening it was decided to have the Chateaufort appear here as scheduled on June 14th to 20th.

Wm. Perrin, of Winnipeg, has been engaged to take D. F. Croan's place as manager of the Rolling Mills. He arrived on Tuesday and assumed his duties.

CHURCH NOTICES

CATHOLIC CHURCH.
Catholic service will be held on the second Sunday of each month until further notice.

THE PRESBYTERIAN CHURCH.
Morning service at 11. Sunday school and bible class at 2.15. Evening service at 7.30. Rev. W. Shearer, superintendent of Home Missions, will preach both morning and evening.

CHURCH OF ENGLAND.

Friday—Evening and intercession at 7.45; choir practice at 8.10.

Sunday next—Baptism Sunday. Holy communion 11 a. m. Sunday school 2.30. Evening 7.30.

Monday, Tuesday and Wednesday are Rogation days. Evening and Mass each evening at 7.45. Monday—Junior W. A. 4.15. Thursday—Ascension day. Holy communion 8 a. m. Evening 7.45.

Rogation days are days set apart for prayer for a blessing on the crops now being sown. Never was there more need for this. All should attend who can.

FIRST BAPTIST CHURCH.

Sunday morning at 11; subject: "A Spiritual Telephone."

Afternoon at 3 p. m.; subject: "Friendship." The Old Fellows of the district will attend this service in celebration of the 60th anniversary of their order. A united choir will give special music. This service will take the place of the usual evening service.

Sunday school at 12.

Wednesday—Mission Circle meets at Mrs. Jeffery's home at 8 p. m.

Canadians Raiding

The Boche Lines

A report from Canadian headquarters in France says:

"Carrying out a deliberate policy of harassing and worrying the enemy, the Canadians all along their front are raiding the Boche lines consistently. Not a night passes without one or two or three raids, some of them of a minor nature against hostile posts, others in strength, penetrating the enemy's front line and support areas. Our formation of No. 100's Land has never been more complete nor have we ever conducted such constant operations of an aggressive character, with less cost to ourselves."

Some idea of the gigantic struggle can be gained when it is said the Germans threw three hours fire from 1,600,000 shells. They could not have done this without the help of captured British and Russian guns and shells. In the whole war of 1870, only 1,600,000 shells were fired from either side.

Irish Conscription Is Again Delayed

An order in council has been issued postponing the operation of the National Service Act or conscription, as respects Ireland beyond May 1, to which it had been postponed previously. Some of the morning newspapers say the postponement is due to the government's wish to introduce the home rule bill and to see what measure of success it gets before proceeding to enforce conscription in Ireland, which, it is said in some quarters, is not likely to be attempted in the next few weeks.

Opinion in the lobbies of parliament is that the home rule bill will be presented in the house of commons next week, but difficulties of drafting have not been overcome entirely.

NOW A LIEUTENANT IN AMERICAN FLYING CORPS

We reprint the following from a St. Paul paper:

"Hazel Ogden Hastings, 27 years old, the son of W. B. Hastings, 56 Arundel street, has been commissioned a first lieutenant in the American Flying corps, after completing training at the ground school at Berkeley, Cal., and at Redwood field at San Diego. He graduated from Mechanics school in 1916. With his wife he is expected home on leave next week."

Lieut. Hastings was a resident of Reddelf about three years ago and at one time ran the big motor bus between here and Medicine Hat.

Prominent Lecturer at Chateaufort

Dr. William Rader Comes on Third Day.

Peter Clark McFarland, in a notable article in Collier's Weekly, has named Dr. William Rader as one of the twelve great speakers of the United States. Dr. Rader is to lecture on the third afternoon of Chateaufort, "The Making of a Man," a great inspirational message which is

DR. WM. RADER, said by many critics to be his greatest platform effort. This splendid lecture is characterized by its simplicity, naturalness and force. Dr. Rader is the author of several volumes looking to the reader a niche for himself in the newspaper field. He was formerly an editorial writer for the San Francisco Bulletin and closely identified with Dr. J. B. Burns, Francis J. Henry and Fremont Older in the prosecution of the graft in San Francisco.

TAKING YANKS SERIOUSLY.

German newspapers which last year ridiculed American intervention in the war have begun gradually to jettison the German public regarding the danger of present and future American intervention of the western front. For instance, the Zeitung of Constantine, says:

"We must hurry to obtain a solid victory by arms before the full American forces arrive."

The Vienna newspapers are taking the same line of thought in Germany.

LOOKING FOR PEACE.

The best indications of the enemy defeat in northern France is contained in the advent of His Eminence's renewal of the peace offer. Thus the German papers state that the Pope is about to issue a new peace note, while German peace agents are busy in neutral countries and no doubt is entertained that the visit of the Austrian foreign secretary to the Kaiser is connected with such a move.

Allies Can Hold Till Sammies Come

The Daily Mail says the fact that America and France are still unprepared after six weeks of unprecedented enemy effort shows the ability of the Allies to hold the Germans until the spring army, whose advent the enemy dreads, can play its part.

BRITISH FREIGHTER SINKS HUN BUE

A British freight steamer, Colby, from the yards of her builders, celebrated her maiden voyage Atlantic voyage by running down and sinking a German U-boat off the Irish coast, her crew reported upon their arrival yesterday. The freighter was equipped with the latest anti-submarine devices, which proved effective.
